Proposed Zoning Change

• One (1) sit down *restaurant*

A *restaurant* is defined as a building or part thereof used primarily for the preparation and serving of food and beverages to patrons for immediate consumption therein or within a physically defined open air sit down eating area located on the same lot therewith.

Currently, the supplementary zoning for this property only permits a restaurant that is exclusively on a corner lot. The subject site is not considered a corner lot.

The proposed sit-down restaurant would be an added site-specific additional use that is comparable with the currently permitted take-out restaurant use on the neighbouring corner lot. All other uses listed under the M2.1 Zone will still be permitted.

The applicant intends this restaurant to serve the patrons and employees of the future business/industrial park.
