Re: 2025 Accessibility Grant

Good Day,

The Co-An Park Advisory Committee has been approached with a request by the **Music Jamboree to add a ramp to our stage. This year's event had a band of which** one member was in a wheelchair and had a difficult time getting on stage.

Co-An Park strives to continually make improvements and would like your suggestions as to what type of ramp should be installed and any other areas of concern with this endeavor.

At this time, we would also like your committee to consider helping fund this project, we will be approaching the Town of **Amherstburg's** Accessibility Committee with the same request, with the hopes of a joint 50% adventure.

We look forward to your suggestions and appreciate your consideration for funding.

In the Spirit of our community,
Respectfully,

Co-An Park Committee
