
To the Essex Heritage Committee:

I must thank you for the incredible experience it has been and the opportunity to participate as part of the committee. I believe in its mandate, the intention of its members, and the inherent and timeless good that it brings to the community.

As you know, Danielle and I recently welcomed our son, and I've found myself in the wonderful position of dedicating my time wholeheartedly to family-life. Unfortunately, there is a trade-off in that I will no longer be able to serve on the committee at this time. It is unfair that I should continue to occupy a position that someone equally deserving could take-up all the while I continue to leave my seat vacant.

I know that Essex will continue to benefit from your insight, hard work, and dedication to the preservation and promotion of the town's history and heritage. In this way, great things are on the horizon and I am eager to see what you put forward in the months and years ahead.

All the best,
Grant Peters
