RE: Province of Ontario Investment in EnerQuest Technologies

Dear Mr. Leardi,

On behalf of the Town of Essex, I would like to extend our sincere thanks to the Province of Ontario for the \$1.5 million investment in EnerQuest Technologies Solutions Inc. from the Southwest Ontario Development Fund.

This funding represents a significant commitment to our local economy and to the hardworking people of our community. The expansion of EnerQuest's operations in Harrow, including the reshoring of manufacturing from the United States, demonstrates the strength of our local workforce and the growing confidence in Essex as a place to invest and grow.

We are especially encouraged by the creation of new jobs and the protection of existing positions. This type of investment not only strengthens our local manufacturing sector but also supports families, drives innovation, and builds long-term economic resilience across our region.

We appreciate your continued advocacy for our community and your role in helping to secure this important funding. Partnerships between municipalities and the province are essential, and this investment is a strong example of what can be achieved when we work together.

Thank you again for your support and commitment to Essex. We look forward to continuing to build a strong and prosperous future for our residents.

Sincerely,

A handwritten signature in cursive script that reads "Sherry Bondy".

MAYOR SHERRY BONDY
Town of Essex
