Recommendation(s)

That Development Services Report 2022-05 entitled "Climate Change Adaptation Plan Annual Report" prepared by Lori Chadwick and Marc Tortola dated April 19, 2022 be received for information.

Purpose

The purpose of this report is to provide a progress update to Council on the status of initiatives and action items identified in the Council-adopted Climate Change Adaptation Plan.

Background and Discussion

At the Regular Meeting on February 16, 2021, Council officially adopted "Climate Ready: A Climate Change Adaptation Plan (CCAP) for the Town of Essex, 2021-2026". The CCAP provides a roadmap for both Council and Administration on how we can prepare and adapt to the future impacts of climate change through policy, process, infrastructure, and

communication developments. The presented action items in the CCAP were developed in a way to avert damages to public and private assets, operations, services, heritage, economy, and the quality of life of residents.

As identified in the CCAP, Administration will be delivering an Annual Report to Council which will highlight the action that have been initiated and implemented across the corporation and the community. This first Annual Report, attached herein, highlights the progress made from March 2021 to March 2022.

Financial Impact

The cost of implementing action items in the CCAP have been estimated in the ranges stated within the document itself.
